

I think...

In a mobile phone,  
this layout is more  
preferable

However...

“help.nitrous.io”  
appear as this in a  
mobile phone  
currently.

I wondered...

**Why not displayed well in a mobile phone?**

The reason is...

I can't find viewport...  
So I guess.....  
Window width is 980px!!!

←.....Width is 480px in fact.

***viewport* was not set in "help.nitrous.io"**

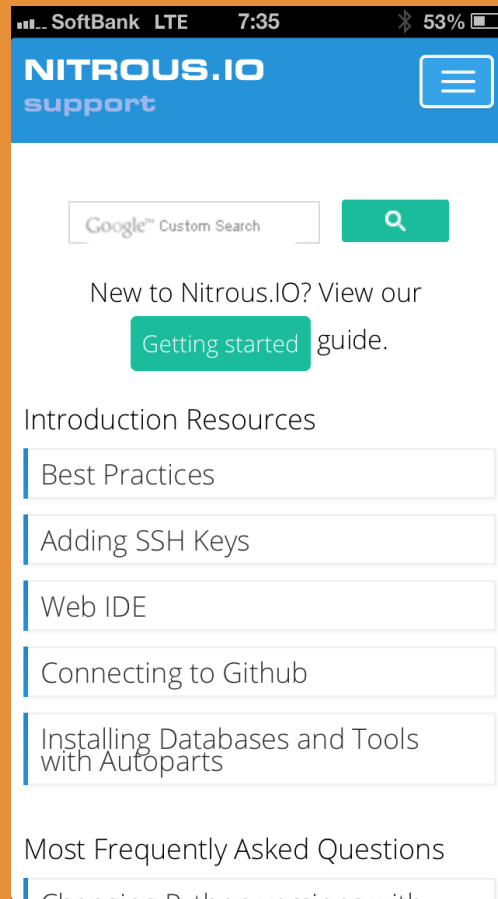

For these reasons...

```
1 ■■■■■ _includes/head.html

I added *viewport* to “help.nitrous.io”

# Result

It now displays correctly →
