Hi!
I'm new to Web Design industry.I develop a small
Coming Soon Page.
I would really appreciate some feedback from senior
designers and developers about my test site.I used a
free web host just for demo

It's Me!

koheishingai

I like your Coming Soon Page and it's high quality.
I have one idea about "Our Team" section when
narrow width.
please see it.

I agree with koheishingai and one additional detail. At small screen size the text on the count down could be a little bigger. After all the viewer is viewing your site using a small screen size device to begin with. Lets enhance UX with a minutely bigger font size :).

Hi Guys! Thanks for feedback!
koheishingai I like your suggestion and I applied it. Only problem is my countdown plugin which is not fluid and I see horizontal scroll when I resize my browser.I will try to make it fluid to.

Again thanks.

Sherlin

I liked the design and the page layout.. The countdown part is really innovative..
Keep up the good work..

I've created it in 20 minutes!
